From the Chair & CEO

Dear Members,

As you browse the 2014 Annual Report you may notice a few changes when compared to our previous annual reports. With an escalated focus on sustainability, accessibility and a vision for continuous innovation, Railways Credit Union has decided to release the 2014 Annual Report in a digital format and only produce a hard copy version of our financials.

These changes to our annual report are in line with new technologies and a focus on reflecting Railways Credit Union in a modern and contemporary light.

The summary of our annual performance, company overview, yearly highlights and our vision for the future will be digitally released on the morning of the Annual General Meeting. This presentation will include dynamic content from our directors and important information which will keep you updated on Railways Credit Union's direction.

The digital presentation will be available for your perusal on the Railways Credit Union website from 10am, the morning of Thursday 20 November 2014.

Kind Regards,

Michael Scanlan
Chair

Julianne Plath
Chief Executive Officer

Financial Report

2014

Railways Credit Union

INSURANCE AND INDEMNIFICATION OF OFFICERS OR AUDITOR

Insurance premiums have been paid to insure each of the Directors and officers of the Credit Union, against any costs and expenses incurred by them in defending any legal proceeding arising out of their conduct while acting in their capacity as an officer of the Credit Union. In accordance with normal commercial practice disclosure of the premium amount and the nature of the insured liabilities is prohibited by a confidentiality clause in the contract.

No insurance cover has been provided for the benefit of the auditor of the Credit Union.

No indemnities have been given to the officers or auditor other than an agreement to indemnify Directors to the extent permitted by law.

Directors' Report

PRINCIPAL ACTIVITIES

The principal activities of the Credit Union during the year were the provision of financial services to members as prescribed by the Constitution.

No significant changes in the nature of these activities occurred during the year.

OPERATING RESULTS

Review of operations

The results of the Credit Union's operations from its activities of providing financial services to its members did not change significantly from the previous financial year.

Operating Results for the Year

The net profit of the Credit Union for the year ended 30 June 2014 after providing for income tax was \$2,953,764 (2013: \$2,907,875).

DIVIDENDS

No dividends have been paid or declared since the beginning of the financial year and no dividends have been recommended or provided for by the Directors of the Credit Union.

OPTIONS

No options over unissued shares or interests in the Credit Union were granted during or since the end of the financial year and there were no options outstanding at the date of this report.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

In the opinion of the Directors there have been no significant changes in the state of affairs during the year.

EVENTS SUBSEQUENT TO THE END OF THE REPORTING PERIOD

No matters or circumstances have arisen since the end of the reporting period which have significantly affected, or may significantly affect, the operations, the results of those operations or the state of affairs of the Credit Union in subsequent financial years.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

The operations of the Credit Union and the results of those operations are not expected to change significantly in future financial years.

Further information about likely developments in the operations of the Credit Union and the expected results of those operations in future financial years have not been included in this report as the inclusion of such information is likely to result in unreasonable prejudice to the Credit Union.

ENVIRONMENTAL REGULATION AND PERFORMANCE

The Credit Union is not subject to any particular or significant environmental regulation under laws of the Commonwealth or of a State or Territory.

PROCEEDINGS

No person has applied for leave of the Court to bring proceedings on behalf of the Credit Union or to intervene in any proceedings to which the Credit Union is a party for the purpose of taking responsibility on behalf of the Credit Union for all or part of those proceedings. The Credit Union was not a party to any such proceedings during the year.

Directors' Report

REGULATORY DISCLOSURES

The disclosures required by APS 330 Public Disclosures (namely the common disclosures in Attachment A and the Regulatory Capital Reconciliation) may be seen on our website at www.railwayscreditunion.com.au/regulatory-disclosures.

AUDITOR INDEPENDENCE

The Directors received an independence declaration from the auditor, BDO Audit Pty Ltd. A copy has been included on the following page of the report.

This report is made in accordance with a resolution of the Board of Directors and is signed for and on behalf of the Directors by:

Notes to the Financial Statements

For the year ended 30 June 2014

1 CORPORATE INFORMATION

The financial statements cover Railways Credit Union Ltd (the 'Credit Union') for the financial year ended 30 June 2014 and were authorised for issue in accordance with a resolution of the Directors on 24 September 2014.

Railways Credit Union Ltd is an unlisted public company limited by shares, incorporated and domiciled in Australia.

For the purpose of preparing the financial statements, the Credit Union is a for profit entity.

The registered office and principal place of business of the Credit Union is: Level 1, 179 Ann Street, Brisbane, QLD 4000.

The nature of the operations and principal activities of the Credit Union are described in the Directors' report.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the material accounting policies adopted by the Credit Union in the preparation of the financial statements. The accounting policies have been consistently applied, unless otherwise stated.

(a) Basis of preparation

The financial statements are general purpose financial statements, which have been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards including Australian Accounting Interpretations, and the Prudential Standards set down by the Australian Prudential Regulation Authority (APRA).

The financial statements have been prepared on an accruals basis and are based on historical costs except for land and buildings and certain financial assets and financial liabilities that are measured at fair value.

The presentation currency of the financial statements is Australian Dollars.

(b) Compliance with IFRS

The financial statements comply with Australian Accounting Standards and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

(c) New and amended accounting standards and interpretations

The following new and amended standards and interpretations are mandatory for the first time for the financial year beginning 1 July 2013:

- AASB 13 *Fair Value Measurement*
- AASB 119 *Employee Benefits*
- AASB 2012-5 *Amendments to Australian Accounting Standards arising from Annual Improvements 2009-2011 Cycle*.

The adoption of these standards and interpretations did not have any material impact on the current or any prior period and is not likely to materially affect future periods.

(d) New and amended accounting standards and interpretations not yet adopted

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2014 reporting periods and have not been early adopted by the Credit Union. The Credit Union's assessment of the impact of these new standards and interpretations is set out below.

Notes to the Financial Statements

For the year ended 30 June 2014

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) New and amended accounting standards and interpretations not yet adopted (continued)

► AASB 9 *Financial Instruments* (effective from 1 January 2017)

AASB 9 aims to replace AASB 139 *Financial Instruments: Recognition and Measurement* in its entirety. The replacement standard is being issued in phases. To date, the parts dealing with recognition, classification, measurement and derecognition of financial assets and liabilities, as well as hedging have been issued. These parts are effective for annual periods beginning 1 January 2017. Further parts dealing with impairment and amendments to the classification requirements are still being developed.

Management have yet to assess the full impact that this amendment is likely to have on the financial statements. However, they do not expect to implement the amendments until all parts of AASB 9 have been released and they can comprehensively assess the impact of all changes.

(e) Financial assets and financial liabilities

Introduction

(i) Initial recognition

The Credit Union initially recognises loans and advances to members, deposits from members, debt securities and subordinated liabilities on the date that they are originated. All other financial assets and financial liabilities (including financial assets and financial liabilities designated at fair value through profit and loss) are initially recognised on trade date when the related contractual rights or obligations exist.

(ii) Derecognition

The Credit Union derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Credit Union is recognised as a separate asset or liability. The Credit Union derecognises a financial liability when its contractual obligations are discharged or cancelled or when they expire.

(iii) Offsetting

Financial assets and liabilities are set-off and the net amount presented in the Statement of Financial Position when, and only when, the Credit Union has a legal right to set-off the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. Income and expenses are presented on a net basis only when permitted by the accounting standards, or for gains and losses arising from a group of similar transactions.

(iv) Amortised cost measurement

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

(v) Identification and measurement of impairment

Refer Note 2(f) for details.

Notes to the Financial Statements

For the year ended 30 June 2014

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) Financial assets and financial liabilities (continued)

Application

Cash and cash equivalents

Cash and cash equivalents include cash on hand, unrestricted balances held in banks and highly liquid financial assets with original maturities of less than three months, which are subject to insignificant risks of changes in their value, and are used by the Credit Union in the management of its short-term commitments. Cash and cash equivalents are carried at amortised cost in the Statement of Financial Position.

Loans and advances to members

Loans and advances to members are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and that the Credit Union does not intend to sell immediately or in the near term. Loans and advances are initially measured at fair value plus incremental direct transaction costs, and subsequently measured at their amortised cost using the effective interest method.

Investment securities

Investment securities are initially measured at fair value plus incremental direct transaction costs and subsequently accounted for depending on their classification as either held-to-maturity or available for sale.

(i) Held-to-maturity

Held-to-maturity investments are non-derivative assets with fixed or determinable payments and fixed maturity that the Credit Union has a positive intent and ability to hold to maturity, and which are not designated as available for sale.

Held-to-maturity investments are carried at amortised cost using the effective interest rate method. Any sale or reclassification of a significant amount of held-to-maturity investments not close to their maturity would result in the reclassification of all held-to-maturity investments as available-for-sale, and prevent the Credit Union from classifying investment securities as held-to-maturity for the current and the following two financial years.

The Credit Union assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired. Objective evidence includes observable data indicating that there is a measurable decrease in estimated future cash flows.

Impairment losses are measured as the difference between the investment's carrying amount and the present value of the estimated future cash flows, excluding future credit losses that have not been incurred. The cash flows are discounted at the investment's original effective interest rate. Impairment losses are recognised in profit or loss.

(ii) Available-for-sale

Available-for-sale investments are non-derivative investments that are not designated as another category of financial asset.

After initial recognition, available-for-sale investments are measured at fair value. Unquoted equity securities whose fair value cannot be reliably measured are carried at cost. Unrealised gains or losses arising from changes in the fair value of available-for-sale investments are recognised directly in other comprehensive income in the available-for-sale investments revaluation reserve. On sale, the amount held in the available-for-sale reserve associated with that asset is recognised in profit or loss as a reclassification adjustment.

Notes to the Financial Statements

For the year ended 30 June 2014

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) Financial assets and financial liabilities (continued)

Application (continued)

(ii) Available-for-sale (continued)

Where there is a significant or prolonged decline in the fair value of an available-for-sale financial asset below its cost (which constitutes objective evidence of impairment) the cumulative loss recognised in other comprehensive income is reclassified from the available-for-sale investments revaluation reserve to profit and loss as a reclassification adjustment. Reversals of impairment losses on equity instruments classified as available-for-sale cannot be reversed through profit or loss. Reversals of impairment losses on debt instruments classified as available-for-sale can be reversed through profit or loss where the reversal relates to an increase in the fair value of the debt instrument occurring after the impairment loss was recognised in profit or loss.

Interest income from available-for-sale investments is recognised in profit or loss using the effective interest method. Dividend income from available-for-sale investments is recognised in profit or loss when the Credit Union becomes entitled to the dividend.

Deposits

Deposits are initially measured at fair value plus transaction costs, and subsequently measured at their amortised cost using the effective interest method. Interest on deposits is brought to account on an accrual basis. Interest accrued at the end of the reporting period is shown as a part of deposits.

Borrowings

Refer to note 2(l) for details.

(f) Impairment – member loans & advances

A provision for losses on impaired loans is recognised when there is objective evidence that impairment of a loan has occurred. All loans are subject to continuous management review to assess whether there is any objective evidence that any loan or group of loans is impaired. Evidence of impairment may include indications that the borrower has defaulted, is experiencing significant financial difficulty, or where the debt has been restructured to reduce the burden to the borrower.

Impairment losses on loans and advances are measured as the difference between the carrying amount of loans and advances and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the loan and advances original effective interest rate. Impairment losses are recognised in profit or loss and reflected in an allowance account against loans and advances. Interest on impaired assets continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of the impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

The amount provided for impairment of loans is determined by Management and the Board. The Prudential Standards issued by APRA enable the minimum provision to be based on specific percentages of the loan balance, contingent upon the length of time the repayments are in arrears, and the security held. This approach is adopted by the Credit Union. Management and the Board also make a provision for loans in arrears where the collectability of the debt is considered doubtful by estimation of expected losses in relation to loan portfolios where specific identification is impracticable. Note 3(c) details the credit risk management approach to loan impairment.

In addition, a general reserve for credit losses is maintained to cover risks inherent in the loan portfolio. Movements in the general reserve for credit losses are recognised as an appropriation of retained earnings.

Bad debts are written off, as determined by Management and the Board, when it is reasonable to expect that the recovery of the loan is unlikely. All write-offs are on a case-by case basis, taking into account the exposure at the date of the write-off. On secured loans, the write-off takes place following ultimate realisation of collateral value.

Notes to the Financial Statements

For the year ended 30 June 2014

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(f) Impairment – member loans & advances (continued)

Bad debts are written off against the provision for impairment where an impairment has previously been recognised in relation to a loan. If no provision for impairment has previously been recognised, write-offs for bad debts are recognised as expenses in profit or loss.

Renegotiated loans are loans and other similar facilities where the original contractual terms have been modified to provide for concessions of interest, principal or repayment for reasons related to financial difficulties of the member or group of members.

(g) Fair Values

Fair values may be used for financial and non-financial asset and liability measurement as well as sundry disclosures.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is based on the presumption that the transaction takes place either in the principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market. The principal or most advantageous market must be accessible to, or by, the Credit Union.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

The fair value measurement of a non-financial asset takes into account the market participant's ability to generate economic benefits by using the asset at its highest and best use or by selling it to another market participant that would use the asset at its highest and best use.

In measuring fair value, the Credit Union uses valuation techniques that maximise the use of observable inputs and minimise the use of unobservable inputs.

Assets and liabilities measured at fair value are classified, into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed each reporting date and transfers between levels are determined based on a reassessment of the lowest level input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

(h) Property, plant and equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Property

Freehold land and buildings are measured at their fair value, being the amount for which an asset could be exchanged between knowledgeable willing parties in an arm's length transaction, less subsequent depreciation. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

A revaluation increase is credited to other comprehensive income unless it reverses a revaluation decrease on the same asset previously recognised in profit or loss. A revaluation decrease is recognised in profit or loss unless it directly offsets a previous revaluation increase on the same asset in the asset revaluation reserve. On disposal, any revaluation surplus relating to sold assets is transferred to retained earnings.

It is the policy of the Credit Union to have an independent valuation every three years, with annual appraisals being made by the Directors.

Notes to the Financial Statements

For the year ended 30 June 2014

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Property, plant and equipment (continued)

Plant and Equipment

Plant and equipment are measured on the cost basis less depreciation and impairment losses, if any.

Depreciation

The depreciable amount of all property, plant and equipment including buildings and capitalised leased assets but excluding freehold land, is depreciated over their useful lives to the Credit Union commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired term of the lease or the estimated useful life of the improvements.

Property, plant and equipment is depreciated on a straight-line basis.

A summary of the rates used is:

Buildings: 4%

Computer Hardware: 33.3%

Leasehold improvements: 10% - 48.5%

Office furniture and equipment: 10% - 15%

Motor vehicles: 20%

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at each statement of financial position date.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the profit or loss.

(i) Leases

Lease payments for operating leases, where substantially all the risks and benefits incidental to ownership of the asset remain with the lessor, are recognised as expenses (net of incentives received from the lessor) on a straight line basis over the lease term.

(j) Impairment of assets (excluding financial assets)

At each reporting date, the Credit Union reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the assets carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed in profit or loss (except for items carried at revalued amount).

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives, if applicable.

Where it is not possible to estimate the recoverable amount of an individual asset, the Credit Union estimates the recoverable amount of the cash-generating unit to which the asset belongs.

(k) Intangibles

Computer Software

Items of computer software which are not integral to the computer hardware owned by the Credit Union are classified as intangible assets with a finite life. Computer software is amortised on a straight line basis over the expected useful life of the software. These lives range from 2 – 5 years.

(l) Borrowings

Borrowings are initially measured at fair value plus transaction costs, and subsequently measured at their amortised cost using the effective interest method, except where the Credit Union chooses to carry the liabilities at fair value through the profit or loss. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the profit or loss over the period of the borrowings using the effective interest method.

Notes to the Financial Statements

For the year ended 30 June 2014

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(m) Employee benefits

Provision is made for the liability of employee benefits arising from services rendered by employees to the end of the reporting period.

Short-term employee benefits

Liabilities for wages, salaries and sick leave and bonuses and the value of fringe benefits received (including non-monetary benefits) that are expected to be settled wholly within twelve months of the end of the reporting period are recognised in other payables in respect of employee services provided to the end of the reporting period and are measured at the amounts expected to be paid when the liability is settled, plus related on-costs.

Long-term employee benefits

Liabilities for long service leave and annual leave are not expected to be settled within twelve months of the end of the reporting period. They are recognised as provisions for employee benefits and other payables and are measured at the present value of the expected future payments to be made in respect of services provided to the end of the reporting period using the projected unit credit method. Consideration is given to expected future salary and wage increases, experience of employee departures and periods of service. Expected future payments are discounted using national government bond rates at the end of the reporting period with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Contributions are made by the Credit Union to employee superannuation funds and are recognised in profit or loss when incurred.

(n) Revenue

Loan interest is calculated on the daily loan balance outstanding and is charged in arrears to the members loan account on the last day of each month. Loan interest revenue is recognised as interest accrues using the effective interest method. The effective interest method uses the effective interest rate, which is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial asset to the net carrying amount of the asset.

When a loan is classified as impaired, the Credit Union ceases to recognise interest and other income earned but not yet received. Loan interest is generally not brought to account if a loan has been transferred to a debt collection agency, a judgement has been obtained, or where repayments are in arrears and the prospect of a contribution from the member is minimal. However, accrued interest may be recovered as part of the recovery of the debt.

Loan origination fee income and loan transaction costs that are direct and incremental to the establishment of loans are deferred and amortised as a component of the calculation of the effective interest rate in relation to the originated loans.

Fees charged on loans after origination of the loan are recognised in profit or loss when the service is provided.

Fees and commissions are recognised on an accruals basis when service to the customer has been rendered and a right to receive the consideration has been attained.

All revenue is stated net of the amount of goods and services tax (GST).

Notes to the Financial Statements

For the year ended 30 June 2014

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(o) Income tax

The income tax expense for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax base of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for all temporary differences between carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are only recognised for deductible temporary differences and unused tax losses if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. The amount of deductible temporary differences brought to account as deferred tax assets is based on the assumption that no adverse change will occur in income tax legislation and the anticipation that the Credit Union will derive sufficient future assessable income to enable the deferred tax asset to be realised and comply with the conditions of deductibility imposed by the law.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Credit Union has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(p) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the Statement of Financial Position are shown inclusive of GST.

3 FINANCIAL RISK MANAGEMENT

By their nature, the activities of the Credit Union are principally related to the use of financial instruments. The Credit Union accepts deposits at both fixed and floating rates for various periods. Surplus liquidity is invested in high quality assets. Accordingly, the activities of the Credit Union expose it to the following key financial risks; market risk (including interest rate risk), credit risk and liquidity risk.

Treasury risk management is carried out by an appropriately skilled and trained management team and is monitored by an independent Risk Management Committee, under Board mandated and approved risk policies. The management team identifies, evaluates and if deemed appropriate, hedges financial risk, in close co-operation with the operating units. The Board approves written principles for overall risk management, as well as detailed policies covering specific areas, such as mitigating interest and credit risk, specific large credit exposures and loan arrears.

(a) Risk management

Oversight of risk management is the responsibility of the Risk Management Committee operating in accordance with formal risk policies approved by the Board. The Risk Management Committee, which meets regularly, comprises independent non-executive Directors. It recommends to the Board the risk management policies which the Audit and Compliance Committee monitor. This includes the identification, assessment and reporting of risks. It also ensures that contingency plans are in place to achieve business continuity in the event of serious disruptions to business operations.

Notes to the Financial Statements

For the year ended 30 June 2014

3 FINANCIAL RISK MANAGEMENT (continued)

(a) Risk management (continued)

The Audit and Compliance Committee, which comprises independent non-executive Directors, oversees the testing and assessment of internal controls implemented by management to manage material risk. The internal audit program is approved by this committee, and it considers the outcome of both internal and external audit reports. The committee monitors compliance with Board policies as well as prudential and statutory requirements. The committee reviews annual financial statements prior to sign off by the Board, and oversees breach reporting to regulatory bodies such as APRA and ASIC.

The Chief Executive Officer (CEO) annually certifies to APRA that senior management and the Board have identified key risks facing the Credit Union, established systems to monitor those risks, including setting and requiring adherence to a series of prudential limits and adequate, timely reporting processes, and they ensure that these risk management systems are operating effectively and are adequate having regard to the risks they are designed to control. Any breaches in compliance are reported to the Board in a timely manner in accordance with the applicable policy.

(b) Market risk

Market risk is the potential adverse change in the Credit Union's income or the value of the Credit Union's net worth arising from movements in interest rates or other market prices. The objective of the Credit Union is to manage and control market risk exposure in order to minimise risk and optimise return. The Credit Union is not exposed to currency risk or any other significant price risk. It does not trade in the financial instruments it holds on its books and is only exposed to interest rate risk arising from changes in market interest rates.

The management of market risk is the joint responsibility of the Finance Manager and CEO.

Market risk is measured and reported using a variety of techniques, according to the appropriateness of the technique to the exposure concerned. The techniques used to measure interest rate risk include interest rate repricing gap analysis, sensitivity analysis and interest rate risk management profiles conducted by an independent risk management consultancy. Refer to 3(e) below for the detail of these policies and for quantitative disclosures in respect of interest rate risk.

(c) Credit risk

Credit risk is the risk of financial loss as a result of a default by counterparties to discharge contractual obligations. The Credit Union assumes credit risk predominantly from its lending activities. Exposure also arises from investment activities and off balance sheet financial instruments such as loan commitments.

Credit risk policy

Credit risk, being the most significant risk faced by the Credit Union, is managed to ensure exposure is minimised while supporting sound growth.

(i) Loans and advances

The method of managing credit risk is by way of strict adherence to the credit assessment policies before the loan is approved and close monitoring of defaults in the repayment of loans thereafter. The credit policy has been endorsed by the Board to ensure that loans are only made to members who are considered capable of meeting loan repayments. A regular review of compliance with these policies is conducted as part of the scope of internal audit.

(ii) Liquid investments

Credit risk in relation to liquid investments is the risk that the other party to a financial instrument will fail to discharge their obligation resulting in the Credit Union incurring a financial loss. This usually occurs when debtors fail to settle their obligations owing to the Credit Union. Refer to note 3(d).

Notes to the Financial Statements

For the year ended 30 June 2014

3 FINANCIAL RISK MANAGEMENT (continued)

(c) Credit risk (continued)

Credit risk management

(i) Loans and advances

Concentrations of risk arise when loans are extended to customers of similar risk characteristics, such as industry and geographic location. Credit risk is minimised by dealing with a large number of individual members. A sizeable portion of the loan book is represented by residential mortgages. The primary means of reducing the risk on these loans is the acquisition of security, which is normally residential property in Australia.

The Credit Union has a concentration in retail lending to members who are employees of Queensland Rail or Aurizon. This concentration is considered acceptable as the Credit Union was formed to service these members, and the employment concentration is not exclusive. Should members leave the industry, the loans continue and other employment opportunities are available to the members to facilitate the repayment of the loans.

It is the policy of the Credit Union to allow members with a secured loan or advance reasonable assistance and opportunity to rectify a breach prior to recovery procedures being initiated. However, if a counterparty has failed to make a payment when contractually due, various actions are triggered such as re-negotiation, enforcement of covenants or legal proceedings and the impairment and provisioning policies are actioned.

Concentrations of credit risk on loans greater than 10% of capital currently arise in the following categories:

Industry	Maximum credit exposure			
	% of total loans		\$	
	2014	2013	2014	2013
Queensland Rail employees	27.06%	28.92%	130,304,670	141,304,098
Aurizon employees	25.41%	26.12%	122,400,099	127,605,125

At the balance date there were no concentrations of credit risk on loans to individual members (including associated members) greater than 10% of capital.

(ii) Liquid investments

There is presently no concentration of credit risk with respect to the investment receivable of the Credit Union. To limit the concentration of risk, the Credit Union uses the following credit rating limits:

S&P Credit Rating	Eligible Capital Base	
	Investment in an individual ADI	Investment in a number of ADIs
	Maximum	Maximum
AAA to A-	50%	150%
BBB+ to BBB-	25%	75%
Unrated*	5%	15%

* Deposits with Indue Limited (Indue) are excluded from the calculation relevant to these limits. The Credit Union must deposit with Indue a security amount calculated on the basis of previous twelve month's average banking transactions provided by Indue to the Credit Union.

Notes to the Financial Statements

For the year ended 30 June 2014

3 FINANCIAL RISK MANAGEMENT (continued)

(c) Credit risk (continued)

Measurement of credit risk

(i) Loans and advances

Lending conditions are continually monitored to compare the position of the Credit Union to the rest of the market to ensure that opportunities are maximised and the Credit Union is prepared for downturns.

Comprehensive reports are tabled on a regular basis to the Board and senior executive dissecting the loan book balance into various risk profiles. For example, in relation to retail loans risk characteristics such as geographic distribution of loans, security type, occupancy type, loan to value ratios, and mortgage insurance percentages are detailed.

Stress testing is an integral tool in the management of credit risk exposure, by projecting financial impacts of movements in market conditions, particularly movements in interest rates. Recent stress testing has indicated that the Credit Union is resistant to moderate interest rate fluctuations.

(ii) Liquid investments

The Credit Union uses the ratings of reputable ratings agencies to assess the credit quality of all investment exposure.

Prior to placing an investment with an acceptable unrated ADI, Management must ensure sufficient due diligence is undertaken to satisfy itself that the unrated ADI is a financially viable and stable entity. As part of this process, Management will review the unrated ADI's most recent annual report, and such other financial information as may be available. Management will also ensure the unrated ADI is licensed with APRA.

The carrying values associated with each credit quality step for the Credit Union are as follows:

	2014	2013
	Carrying value	Carrying value
	\$	\$
ADI's – rated AAA to A-	58,057,530	47,511,861
ADI's – rated BBB+ to BBB-	23,088,435	23,745,201
ADI's – unrated	6,784,347	11,950,686
Total	87,930,312	83,207,748

Impairment and provisioning policies

(i) Loans and advances

The Credit Union recognises an impairment allowance for impairment losses in relation to loans based on losses that have been incurred at balance date using objective evidence for impairment.

Once a loan is past due by 90 days (14 days for overdrafts) it is considered impaired unless other factors indicate that the impairment should be recognised sooner. Management make judgements about a counterparty's financial situation and the net realisable value of any underlying collateral to estimate future cash flows.

Due to the different methodologies used, the allowance for impairment losses calculated for the purposes of Australian Accounting Standards is significantly different to the required prescribed provision as determined for APRA reporting purposes.

Key assumptions in determining the provision for impairment

In the course of the preparation of the financial statements, the Credit Union has determined the likely impairment loss on loans and overdrafts which have not maintained loan repayments in accordance with the contract, or where there is other evidence of potential impairment such as bankruptcy, industrial restructuring, job losses or economic circumstances.

Notes to the Financial Statements

For the year ended 30 June 2014

3 FINANCIAL RISK MANAGEMENT (continued)

(c) Credit risk (continued)

Impairment and provisioning policies (continued)

In identifying the impairment likely from these events the Credit Union is required to estimate the potential impairment, using the length of time the loan is in arrears, and the historical losses arising in past years. Given the relatively small number of impaired loans, the circumstances may vary for each loan over time resulting in higher or lower impairment losses. An estimate is based on the period of impairment.

The provision calculated on a specific identification basis is prescribed by the Prudential Standards and is broadly on the following basis:

Period of impairment	Unsecured Overdrafts % of balance	Unsecured Loans % of balance	Secured Loans and Overdrafts % of balance
Less than 14 days	-	-	-
14 to 89 days	40%	-	-
90 days to 181 days	75%	40%	5%
182 days to 272 days	100%	60%	10%
273 days to 364 days	100%	80%	15%
Over 364 days	100%	100%	20%

Quantitative disclosures in respect of the calculation and aging analysis of loans and advances is set out in Note 13.

Credit risk exposure

The Credit Union's maximum credit risk exposure, without taking into account the value of any collateral or other security, in the event other parties fail to perform their obligations under financial instruments in relation to each class of recognised financial asset, is the carrying amount of those assets as indicated in the Statement of Financial Position where the maximum credit risk exposure is \$576,747,034 (2013: \$580,202,840).

In relation to loans, the maximum credit exposure is the value of the Statement of Financial Position plus the undrawn facilities (loans approved not advanced, overdraft limits). Details of undrawn facilities are shown in Note 22(b). Details of collateral held as security are disclosed in Note 13(i).

(d) Liquidity risk

Liquidity risk is the risk that the Credit Union may encounter difficulties raising funds to meet commitments associated with financial instruments e.g. borrowing repayments or member withdrawal demands. It is the policy of the Board that the Credit Union maintains adequate cash reserves so as to meet the member withdrawal demands when requested.

Liquidity risk management

The Credit Union manages liquidity risk by:

- ▶ Continuously monitoring actual daily cash flows and longer term forecast cash flows;
- ▶ Monitoring the maturity profiles of financial assets and liabilities;
- ▶ Maintaining adequate reserves, liquidity support facilities and borrowing facilities; and
- ▶ Monitoring the prudential liquidity ratio daily.

The Credit Union has a long standing arrangement with the industry liquidity support scheme, CUFSS, which can access industry funds to provide support to the Credit Union should this be necessary at short notice.

The Credit Union is required to maintain at least 9% of total adjusted liabilities as liquid assets capable of being converted to cash within 48 hours under the APRA Prudential Standards. The Credit Union's policy is to apply an operational minimum of 12.5% of funds as liquid assets to maintain adequate funds for meeting member withdrawal requests. The ratio is checked daily. Should the liquidity ratio fall below this level the Management and Board are to address the matter and ensure that the liquid funds are obtained from new deposits and the borrowing facilities available. Note 25 describes the borrowing facilities as at balance date.

Notes to the Financial Statements

For the year ended 30 June 2014

3 FINANCIAL RISK MANAGEMENT (continued)

(d) Liquidity risk (continued)

Liquidity risk management (continued)

The ratio of liquid funds over the past year is set out below:

	2014	2013
To total adjusted liabilities:		
- As at 30 June	14.88%	15.22%
- Average for the year	14.69%	16.00%
- Minimum during the year	14.52%	14.39%

To total deposits:

- As at 30 June	15.21%	15.56%
-----------------	---------------	--------

Maturity profile of financial liabilities

The table below shows the undiscounted cash flows on the Credit Union's financial liabilities, including unrecognised loan commitments on the basis of the earliest possible contractual maturity.

These values will not agree to the statement of financial position.

The Credit Union's expected cash flows on financial liabilities vary significantly from this analysis. For example, on-call deposits from customers are expected to maintain a stable or increasing balance and unrecognised loan commitments are not all expected to be drawn down immediately.

To manage the liquidity risk arising from financial liabilities, the Credit Union holds liquid assets comprising cash and cash equivalents and investment grade investment securities for which there is an active and liquid market. These assets can be readily sold to meet liquidity requirements. Hence, the Credit Union believes that it is not necessary to disclose a maturity analysis in respect of these assets to enable the users to evaluate the nature and extent of liquidity risk.

The maturity profile of the Credit Union's financial liabilities is shown in the following table:

Year ended 30 June 2014	<i>Carrying value</i>	<i>Within 1 month</i>	<i>1-3 months</i>	<i>3-12 months</i>	<i>1-5 years</i>	<i>No maturity</i>	<i>Gross nominal outflows</i>

Notes to the Financial Statements

For the year ended 30 June 2014

3 FINANCIAL RISK MANAGEMENT (continued)

(e) Interest rate risk

Interest rate risk is the risk or variability of the fair value of future cash flows arising from financial instruments due to the changes in interest rates.

The policy of the Credit Union is to maintain a balanced 'on book' strategy by ensuring the net interest rate gaps between assets and liabilities are not excessive. The Credit Union aims to limit any loss due to a change in interest rates to be no greater than 3% of regulatory capital. The gap is measured monthly to identify any large exposures to the interest rate movements and to rectify the excess through targeted fixed rate interest products available through investment assets, and term deposit liabilities to rectify the imbalance to within acceptable levels. The Credit Union can undertake derivative transactions to reduce the interest rate risks.

A review of the interest rate risk management profile is conducted by Management. The Board monitors interest rate risk through these reviews and other Management reports.

Based on calculations as at 30 June 2014, the profit before tax and equity impact for a 1% (2013: 1%) movement in interest rates would be \$491,900 (2013: \$508,600).

The method used in determining the sensitivity is to evaluate the profit impact based on the timing of the interest repricing on the banking book of the Credit Union for the next 12 months. In doing the calculation the assumptions applied were that:

- ▶ the interest rate change would be applied equally to loans, term deposits and savings;
- ▶ the rate change would be as at the beginning of the 12 month period and no other rate changes would be effective during the period;
- ▶ the term deposits would all reprice to the new interest rate at the term maturity;
- ▶ savings that are considered by the Credit Union to be sensitive to interest rate changes would all reprice in the event of a rate change within 30 days;
- ▶ savings that are not considered by the Credit Union to be sensitive to interest rate changes and are as a consequence less likely to change in the future, would reprice no earlier than 1 year;
- ▶ variable interest rate mortgage loans would all reprice to the new interest rate within 30 days;
- ▶ fixed rate mortgage loans would all reprice at a new interest rate at the expiry of their fixed rate period.
- ▶ personal loans would reprice to the new interest rate within 30 days;
- ▶ all loans would be repaid in accordance with the current average repayment rate (or contractual repayment terms);
- ▶ the value and mix of call savings to term deposits will be unchanged; and
- ▶ the value and mix of personal loans to mortgage loans will be unchanged.

There has been no significant change to the Credit Union's exposure to market risk or the way the Credit Union manages and measures interest rate risk in the reporting period.

Notes to the Financial Statements

For the year ended 30 June 2014

3 FINANCIAL RISK MANAGEMENT (continued)

(e) Interest rate risk (continued)

Interest rate risk maturity profile

The Credit Union's exposure to interest rate risk, which is the risk that a financial instrument's value or cash flows will fluctuate as a result of changes in market interest rates, and the effective weighted average interest rate on classes of financial assets and financial liabilities, is set out below.

	Floating interest rate \$	Fixed interest rate maturing			Non-interest sensitive \$	Total \$	Effective interest rate
		Within 1 year \$	1-5 years \$	Over 5 years \$			
2014							
Assets							
Cash and cash equivalents	20,237,377	-	-	-	-	20,237,377	2.97%
Financial assets available for sale	-	-	-	-	825,775	825,775	N/A

Notes to the Financial Statements

For the year ended 30 June 2014

3 FINANCIAL RISK MANAGEMENT (continued)

(f) Operational risk

Operational risk is the risk of loss to the Credit Union resulting from deficiencies in processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks. Operational risks in the Credit Union relate mainly to legal compliance, business continuity, data infrastructure, outsourced services, fraud, and employee errors.

The Credit Union's objective is to manage operational risk so as to balance the avoidance of financial losses through the implementation of controls, whilst avoiding procedures which inhibit innovation and creativity. These risks are managed through the implementation of policies and systems to monitor the likelihood of the events and minimise the impact.

Systems of internal control are enhanced through:

- ▶ The segregation of duties between employee duties and functions, including approval and processing duties;
- ▶ Documentation of the policies and procedures, employee job descriptions and responsibilities, to reduce the incidence of errors and inappropriate behaviour;
- ▶ Implementation of whistle blowing policies to promote a compliance culture and awareness of duty to report exceptions by staff;
- ▶ Education of members to review their account statements and report exceptions to the Credit Union promptly;
- ▶ Effective dispute resolution procedures to respond to member complaints;
- ▶ Effective insurance arrangements to reduce the impact of losses;
- ▶ Contingency plans for dealing with loss of functionality of systems or premises or staff; and
- ▶ The use of a software system designed to manage controls and compliance related tasks.

Fraud

Fraud can arise from members' banking activities including where either PIN or passwords are being compromised and are not protected adequately by the member. It can also arise from other system failures. The Credit Union has systems in place which are considered to be robust enough to prevent any material fraud. However, in common with all retail ADIs fraud is potentially a real cost to the Credit Union. Fraud losses have arisen from Visa card transactions and internet banking activity.

IT Systems

The Credit Union manages the majority of its IT environment with the contracted support of specialist organisations. The Credit Union's investment in its IT environment and training of the IT staff is significant so as to ensure that the Credit Union is able to meet member expectations and service requirements. Other network suppliers are engaged on behalf of the Credit Union by Indue Limited to service the settlements with other financial institutions for direct entry, Visa cards, member chequing and BPay.

The Credit Union's disaster recovery site is sufficiently equipped to mitigate the risk of a disaster having a significant impact on the Credit Union's financial position.

(g) Capital management

The Credit Union is regulated by APRA. As a result the Credit Union must, for capital adequacy purposes, hold the minimum levels of capital required by Australian Prudential Standard (APS) 110 Capital Adequacy. As part of these requirements the Credit Union must hold Tier 1 capital and may also include tier 2 capital as part of its required capital holding up to certain prescribed limits.

Tier 1 capital comprises the highest quality components of capital that fully satisfy the following essential characteristics:

- (a) provide a permanent and unrestricted commitment of funds;
- (b) are freely available to absorb losses;
- (c) do not impose any unavoidable servicing charge against earnings; and
- (d) rank behind claims of depositors and other creditors in the event of winding up.

Notes to the Financial Statements

For the year ended 30 June 2014

3 FINANCIAL RISK MANAGEMENT (continued)

(g) Capital management (continued)

For the purpose of calculating the Credit Union's capital base, Tier 1 capital consists of retained earnings, realised reserves, available for sale reserve (which arises from the revaluation of financial instruments categorised as available for sale and reflects the net gains in the fair value of those assets) and current year earnings. The Credit Union's Tier 1 capital accordingly consists of only Common Equity Tier 1 capital.

Tier 2 capital includes other components that, to varying degrees, fall short of the quality of Tier 1 capital, but nonetheless contribute to the overall strength of an institution as a going concern. Tier 2 capital consists of a general reserve for credit losses.

Capital in the Credit Union is made up as follows:

	2014 \$	2013 \$
Tier 1 Capital		
General reserve	49,225,065	46,310,619
Retained earnings	2,953,774	2,907,875
Asset revaluation reserve	3,235,725	3,127,933
Prescribed deductions	(1,276,027)	(1,057,457)
Net Tier 1 capital	54,138,537	51,288,970
Tier 2 Capital		
Reserve for credit losses	963,325	977,204
Net Tier 2 capital	963,325	977,204
Total Tier 1 & Tier 2 Capital	55,101,862	52,266,174
Less deductions from total capital	-	-
Total Capital	55,101,862	52,266,174

Credit Unions are required to maintain a minimum Tier 1 capital level of 8% of risk weighted assets at any given time in accordance with APRA Prudential Standards.

The capital ratio as at the end of the financial year and for the past 4 years was as follows:

2014	2013	2012	2011	2010
19.90%	18.90%	17.45%	16.28%	15.41%

The level of capital ratio can be affected by growth in assets relative to growth in reserves and by changes in the mix of assets.

To manage the Credit Union's capital, the Credit Union reviews the ratio monthly and monitors major movements in asset levels. Policies have been implemented which require reporting to the Board and the regulator if the capital ratio falls below 15%.

The capital ratio requirements were met at all times during the financial year.

Notes to the Financial Statements

For the year ended 30 June 2014

4 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements and estimates on historical experience and on other various factors it believes to be reasonable under the circumstances, the result of which form the basis of the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Management has identified the following critical accounting policies for which significant judgements, estimates and assumptions are made. Actual results may differ from these estimates under different assumptions and conditions and may materially affect financial results or the financial position reported in future periods.

Further details of the nature of these assumptions and conditions may be found in the relevant notes to the financial statements.

(i) Significant accounting judgements

Impairment of non-financial assets

The Credit Union assesses impairment of all assets at each reporting date by evaluating conditions specific to the Credit Union and to the particular asset that may lead to impairment. No impairment indicators were noted during this review.

Taxation

The Credit Union's accounting policy for taxation requires management's judgement as to the types of arrangements considered to be a tax on income in contrast to an operating cost. Judgement is also required in assessing whether deferred tax assets and certain deferred tax liabilities are recognised on the statement of financial position. Deferred tax assets, including those arising from unrecouped tax losses, capital losses and temporary differences, are recognised only where it is considered more likely than not that they will be recovered, which is dependent on the generation of sufficient future taxable profits. Deferred tax liabilities arising from temporary differences in investments are recognised unless repatriation of retained earnings can be controlled and are not expected to occur in the foreseeable future.

Assumptions about the generation of future taxable profits and repatriation of retained earnings depend on management's estimates of future cash flows. These depend on estimates of future production and sales volumes, operating costs, restoration costs, capital expenditure, dividends and other capital management transactions. Judgements are also required about the application of income tax legislation. These judgements and assumptions are subject to risk and uncertainty, hence there is a possibility that changes in circumstances will alter expectations, which may impact the amount of deferred tax assets and deferred tax liabilities recognised on the statement of financial position and the amount of other tax losses and temporary differences not yet recognised. In such circumstances, some or all of the carrying amounts of recognised deferred tax assets and liabilities may require adjustment, resulting in a corresponding credit or charge to the statement of profit or loss and other comprehensive income.

(ii) Significant accounting estimates and assumptions

Estimation of useful life of an asset

The estimation of the useful life of assets has been based on historical experience as well as manufacturers' warranties (for plant and equipment), lease terms (for leased equipment), remainder of lease term (for leasehold improvements) and turnover policies (for motor vehicles). In addition, the condition of the assets is assessed at least once per year and considered against the remaining useful life and adjustments are made when considered necessary. Depreciation charges are included in Note 14.

Impairment of financial assets

Refer to note 3(c) for policies regarding impairment of financial assets.

Refer to Note 29(b) for details of the fair value of these financial instruments.

9 FINANCIAL ASSETS AVAILABLE-FOR-SALE	2014 \$	2013 \$
<i>At Cost</i>		
Shares in other entities	825,775	825,775
	825,775	825,775
Amount of financial assets available for sale expected to be recovered more than 12 months after the reporting date	825,775	825,775

Shares in Cuscal Limited (Cuscal)

The shareholding in Cuscal is measured at cost as its fair value cannot be measured reliably. This company provides transactional banking, liquidity and capital management products and superannuation solutions to various financial institutions across Australia. The shares are not publicly traded and are not redeemable.

The financial statements of Cuscal record net tangible assets backing these shares exceeding their cost value. Based on the net assets of Cuscal any fair value determination on these shares is likely to be greater than their cost value, but due to the absence of a ready market and restrictions on the ability to transfer the shares, a market value is not able to be determined readily. The Credit Union is not intending, nor able to dispose of these shares, without the Board's approval.

10 OTHER RECEIVABLES	2014 \$	2013 \$

For the year ended 30 June 2014

13 IMPAIRMENT OF LOANS AND ADVANCES (continued)

(d) Assets acquired from loan recovery

There were no assets acquired by the Credit Union during the financial year. The policy of the Credit Union is to exercise its power to sell the assets via auction at the earliest opportunity, after the measures to assist the members to repay the debts have been exhausted.

(e) Loans and advances by impairment class	2014	2013
	\$	\$
Net impaired loans and advances – refer 13 (f)	479,107	314,185
Past due but not impaired – refer 13(g)	2,803,796	2,982,262
Neither past due or impaired – refer 13(h)	477,360,759	484,472,545
Net loans and advances	480,643,662	487,768,992
(f) Impaired loans and advances		
Impaired loans	1,170,508	769,165
Provision for impairment	(691,401)	(454,980)
	479,107	314,185

Impaired loans are generally not secured.

Individually impaired loans and advances to members at reporting date:

Purpose analysis

Housing	320,895	157,380
Personal including revolving credit	849,613	611,785
Provision for impairment	(691,401)	(454,980)
Carrying amount	479,107	314,185

(g) Past due but not impaired loans and advances

These loans are not considered impaired as the value of the related security over residential property is in excess of the loan due. Refer Note 13(i) for details of security held. Past due values are the 'on-balance sheet' loan balances.

Purpose analysis	2014	2013
	\$	\$
Housing	2,557,732	2,612,010
Personal including revolving credit	246,064	370,252
Provision for impairment	-	-
Carrying amount	2,803,796	2,982,262
Aging analysis		
Past due [0-90] days in arrears	2,094,176	2,190,679
Past due [90-180] days in arrears	149,427	408,144
Past due [180-270] days in arrears	560,193	383,439
Carrying amount	2,803,796	2,982,262

Notes to the Financial Statements

For the year ended 30 June 2014

13 IMPAIRMENT OF LOANS AND ADVANCES (continued)

(h) Neither past due nor impaired loans and advances

Purpose analysis	2014	2013
	\$	\$
Housing	438,619,918	438,634,568
Personal including revolving credit	38,740,841	45,837,977
Provision for impairment	-	-
Carrying amount	477,360,759	484,472,545

All loans and advances that are neither past due nor impaired are with customers who are meeting the terms and conditions of their credit agreements. The above values include the balance of re-negotiated loans and advances.

(i) Collateral held

The Credit Union holds collateral against loans and advances to customers as detailed below:

	2014	2013
	\$	\$
Loans and advances with no collateral	25,236,020	28,350,444
Loans and advances with collateral	456,392,750	460,230,461
Gross loans and advances	481,628,770	488,580,905

Where collateral is held, it is in the form of mortgage interests over property, other registered securities over assets, mortgage insurance and guarantees. The fair value of the collateral is measured at the time of providing the loan or advance and is required to be no less than 100% of the loan or advance not including capitalised fees and insurances. The fair value of the collateral is generally not updated except when a loan or advance is individually assessed as impaired. Collateral is usually not held over loans and advances to, or deposits with, other financial institutions. Collateral is usually not held against investment securities.

14 PROPERTY, PLANT AND EQUIPMENT

Notes to the Financial Statements

For the year ended 30 June 2014

14 PROPERTY, PLANT AND EQUIPMENT (continued)

(a) Reconciliation of carrying amounts at the beginning and end of the period

	2014 \$	2013 \$
<i>Land and buildings</i>		
Net carrying amount at beginning of the year	4,214,008	4,332,004
Net revaluation movement	153,988	-
Depreciation charge	(117,996)	(117,996)
Balance at the end of the year	<u>4,250,000</u>	<u>4,214,008</u>
<i>Plant and equipment</i>		
Net carrying amount at beginning of the year	1,032,613	1,162,089
Additions	109,672	164,460
Depreciation charge for the year	(241,987)	(293,936)
Balance at the end of the year	<u>900,298</u>	<u>1,032,613</u>

(b) Revaluation of land and buildings

The valuations of freehold land and buildings were carried out by an independent firm, John Watt and Associates Valuers and Development Consultants on 2 April 2014.

The current market value of the property has been assessed on the basis of direct comparison reflecting a rate per square metre of floor area with a check valuation carried out on the basis of a capitalisation of the estimated net return. The revaluation was based on this market value. The revaluation was made in accordance with a policy to revalue land and buildings every three years. Land and buildings were revalued to \$4,250,000 as at 30 June 2014 based upon this independent valuation.

(c) If revalued land and buildings were stated at historical cost, amounts would be as follows:

	2014 \$	2013 \$
Cost	1,347,967	1,347,967
Accumulated depreciation	(962,298)	(908,380)
Net book value	<u>385,669</u>	<u>439,587</u>

15 INTANGIBLE ASSETS

	2014 \$	2013 \$
<i>Computer software</i>		
At cost	1,687,697	1,328,864
Accumulated amortisation	(1,237,445)	(1,097,182)
Net carrying amount	<u>450,252</u>	<u>231,682</u>

(a) Reconciliation of carrying amount at beginning and end of the period

<i>Computer software</i>		
Balance at the beginning of the year at cost	231,682	302,508
Additions	358,833	100,030
Amortisation expense	(140,263)	(170,856)
Balance at the end of the year	<u>450,252</u>	<u>231,682</u>

Notes to the Financial Statements

(Decrease)/Increase in deposits	(5,758,771)	27,917,422
Net cash flows from/(used in) operating activities	2,554,912	(296,843)

22 COMMITMENTS

(a) Leasing commitments

Operating lease commitments

Non-cancellable operating leases contracted for but not capitalised in the financial statements, payable monthly in advance:

	2014 \$	2013 \$
Within one year	91,052	111,376
After one year but not more than five years	-	81,771
After more than five years	-	-
Total minimum lease payments	91,052	193,147

Notes to the Financial Statements

For the year ended 30 June 2014

22 COMMITMENTS (continued)

(a) Leasing commitments (continued)

Operating lease commitments comprise 3 leases:

- (i) Central Railway Station, Brisbane - a five year lease with monthly payments in advance. The lease expired on 30 April 2014 however we are continuing to lease this building on a month to month basis.
- (ii) Ground Floor, 179 Ann Street, Brisbane - a five year lease with monthly payments in advance. The lease contains an option to extend a further 5 years at the expiry of the lease on 30 June 2015.
- (iii) Rockhampton Regional Office - a five year lease with monthly payments in advance. The lease expired on 30 April 2013. We are continuing to lease this building with a notice period of 3 months by either party.

(b) Outstanding loan commitments

Loans and credit facilities approved but not funded or drawn at the end of the financial year:

	2014	2013
	\$	\$
Loans approved but not funded	9,367,992	8,865,898
Undrawn overdrafts	85,750,272	82,756,037

23 CONTINGENCIES

Credit Union Financial Support Scheme (CUFSS)

The Credit Union is a participant in CUFSS. The purpose of the CUFSS is to protect the interests of Credit Union members, increase stability in the industry and provide liquidity in excess of current borrowing limits in times of need.

The balance of the debt at 30 June 2014 was Nil (2013: Nil).

24 AUDITORS' REMUNERATION

The auditor of Railways Credit Union Ltd is BDO Audit Pty Ltd.

	2014	2013
	\$	\$
<i>Amounts received or due and receivable by BDO Audit Pty Ltd for:</i>		
• An audit or review of the financial report of the Credit Union	65,900	64,000
• Regulatory or prudential audits	37,000	35,775
	102,900	99,775

Notes to the Financial Statements

For the year ended 30 June 2014

25 STANDBY BORROWING FACILITIES

The Credit Union has a gross borrowing facility of:

	Approved Facility \$	Current Borrowing \$	Net Available \$
2014			
Corporate Online Funds Transfer (NAB)	500,000	-	500,000
	500,000	-	500,000
2013			
Corporate Online Funds Transfer (NAB)	500,000	-	500,000
	500,000	-	500,000

The borrowing facilities are not secured and there are no restrictions in relation to these facilities.

26 KEY MANAGEMENT PERSONNEL

(a) Directors

The names of the Directors of the Credit Union who have held office during the financial year are:

Michael (Mike) G Scanlan
 John P Harnischfeger
 Bronwyn (Bron) D Davies
 Kellie L Dyer
 Andrew R Haynes
 Andrew J Hughes
 Henry C Scheuber

(b) Remuneration of Key Management Personnel

Key Management Personnel (KMP) are those persons having authority and responsibility for planning, directing and controlling the activities of the Credit Union, directly or indirectly, including any Director (whether executive or otherwise) of the Credit Union.

KMP comprises the Directors and the members of the Executive Management responsible for the day-to-day financial and operational management of the Credit Union.

The names of the KMP in addition to the Directors of the Credit Union who have held office during the financial year are:

Julianne Plath	Chief Executive Officer
Gavin Burkhardt	Executive Manager Commerce & Marketing
Grant Freeman	Executive Manager Operations

Notes to the Financial Statements

For the year ended 30 June 2014

26 KEY MANAGEMENT PERSONNEL (continued)

(b) Remuneration of Key Management Personnel (continued)

The aggregate compensation of KMP during the year comprising of amounts paid, payable or provided for was as follows:

	<i>Directors</i>		<i>Other KMP</i>	
	<i>2014</i>	<i>2013</i>	<i>2014</i>	<i>2013</i>
	<i>\$</i>	<i>\$</i>	<i>\$</i>	<i>\$</i>
Short-term	238,610	259,190*	721,117	763,383
Post-employment (including superannuation)	22,211	23,327	55,289	55,547
Other Long-term (including long-service leave and annual leave)	-	-	18,187	28,308
	260,821	282,517	794,593	847,238

* This figure includes all amounts paid in the 2012/13 financial year including development incentives relating to the previous financial year. The adjustments in this regard are:

	<i>2013</i>
	<i>\$</i>
Amount paid in 2012/13	259,190
Less: Amount relating to 2011/12	(42,525)
Total paid/payable for 2012/13	<u>216,665</u>

Remuneration shown as short term benefits means (where applicable) wages, salaries, sick leave, bonuses and the value of fringe benefits received, but excludes out of pocket expense reimbursements.

All remuneration to Directors was approved by the members at the previous Annual General Meeting of the Credit Union.

(c) Loans to Key Management Personnel and their Close Family Members

All loans disbursed to KMP were approved on the same terms and conditions applicable to members for each class of loan, with the exception of those KMP who are not Directors. There are no loans that are impaired in relation to the loan balances with KMP.

KMP who are not Directors receive a concessional rate of interest on their loans and facilities. These benefits, where subject to fringe benefits tax, are included in the remuneration in (b) above.

There are no benefits or concessional terms and conditions applicable to the close family members of the KMP. There are no loans that are impaired in relation to the loan balances with close family relatives of KMP.

	<i>2014</i>	<i>2013</i>
	<i>\$</i>	<i>\$</i>
The aggregate value of loans	2,251,027	2,744,453*

* In the signed and distributed financial report for the year ended 30 June 2013 this amount was disclosed as \$1,294,896. In the preparation of the financial statements for the year ended 30 June 2014 an error was identified with the summation of the balances making up this aggregate. This error does not impact any other disclosures within the financial statements.

Notes to the Financial Statements

For the year ended 30 June 2014

26 KEY MANAGEMENT PERSONNEL (continued)

(c) Loans to Key Management Personnel and their Close Family Members (continued)

	2014	2013
	\$	\$
The total value of other credit facilities to KMP as at the balance date amounted to:	745,000	285,000
Less amounts drawn down and included in the above balance	(548,840)	(86,104)
Net balance available	196,160	198,896
During the year the aggregate value of loans disbursed to KMP amounted to:		
Term loans	1,254,858	2,007,919
	1,254,858	2,007,919
During the year the aggregate value of revolving credit facility limits granted or increased to KMP amounted to:	460,000	-
Interest and other revenue earned on loans and revolving credit facilities to KMP and related parties	140,377	121,054

(d) Other Transactions of KMP's and their Close Family Members

KMP have received interest on deposits with the Credit Union during the financial year. Interest has been paid on terms and conditions no more favourable than those available on similar transactions to members of the Credit Union.

	2014	2013
	\$	\$
Total value term and savings deposits at year end	757,864	762,308
Total interest paid on deposits	23,309	27,128

The Credit Union's policy for receiving deposits from other related parties and in respect of other related party transactions, is that all transactions are approved and deposits accepted on the same terms and conditions that apply to members for each type of deposit.

There are no benefits paid or payable to the close family members of the KMP. There are no service contracts to which KMP or their close family members are an interested party.

27 EVENTS SUBSEQUENT TO THE END OF THE REPORTING PERIOD

No matters or circumstance have arisen since the end of the reporting period which have significantly affected or may significantly affect the operations, the results of those operations, or the state of affairs of the Credit Union in subsequent financial years.

Notes to the Financial Statements

For the year ended 30 June 2014

28 CLASSES OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

The following is a summary of financial instruments by class.

	2014	2013
	\$	\$
<i>Loans and receivables - measured at amortised cost</i>		
Cash and cash equivalents	20,237,377	18,150,970
Other receivables	829,360	1,260,039
Loans and advances	480,643,662	487,768,992
	501,710,399	507,180,001
<i>Held to maturity investments - measured at amortised cost</i>		
Financial assets held to maturity	67,692,935	65,056,779
<i>Financial assets available for sale or at cost</i>		
Financial assets	825,775	825,775
<i>Financial liabilities measured at amortised cost</i>		
Deposits	517,416,128	523,174,899
Other payables	685,247	824,125
	518,101,375	523,999,024

29 FAIR VALUE MEASUREMENT

(a) Fair value estimates

The fair value estimates were determined as follows:

Cash and cash equivalents and other receivables

The carrying values approximate their fair value as they are short term in nature or are receivable on demand.

Investments

- (i) Assets measured at cost: Fair value is not reasonably determinable due to the unpredictable nature of cashflow and lack of suitable method of arriving at a reliable fair value.

The shareholding in Cuscal is measured at cost as its fair value cannot be measured reliably. This Company was created by credit unions to supply services to the shareholding credit unions. Originally shares were held to enable the Credit Union to receive essential banking services. The shares are not publicly traded and are not redeemable.

The financial reports of Cuscal record net tangible assets backing of these shares exceeding their cost value. Based on net assets of Cuscal, any fair value determination on these shares is likely to be greater than their cost value, but due to the absence of a ready market and restrictions on the ability to transfer the shares, a market value is not able to be determined readily. Shares may be sold to another shareholder of the Company. The Credit Union does not currently intend to dispose of these shares.

- (ii) Assets measured at fair value: Fair values of financial assets available for sale are determined based on quoted market prices.
- (iii) Assets measured at amortised cost: The carrying values of financial assets held to maturity approximate their fair value due to the short-term maturities of these securities.

Notes to the Financial Statements

For the year ended 30 June 2014

29 FAIR VALUE MEASUREMENT (continued)

(a) Fair value estimates (continued)

Loans and advances

For variable rate loans the carrying value is a reasonable estimate of fair value. The fair value for fixed rate loans was calculated by utilising discounted cash flow models based on the maturity of the loans. The discount rates applied were based on the current benchmark rate offered for the average remaining term of the portfolio as at 30 June 2014.

Other payables

The carrying value approximates their fair value as they are short term in nature.

Deposits

The fair value of at call and variable rate deposits, and fixed rate deposits repriced within twelve months, approximates the carrying value. Discounted cash flow models based upon deposit types and related maturities were used to calculate net fair value of other term deposits. The discount rates applied were based on the current benchmark rate offered for the actual remaining term of the portfolio as at 30 June 2014.

(b) Financial assets and liabilities

The table below summarises the fair values of financial assets and liabilities at reporting date.

	Note	2014		2013	
		Carrying value	Fair value	Carrying value	Fair value
		\$	\$	\$	\$
Financial Assets					
Cash and cash equivalents	8	20,237,377	20,237,377	18,150,970	18,150,970
Other receivables	10	829,360	829,360	1,260,039	1,260,039
Financial assets held to maturity	11	67,692,935	67,692,935	65,056,779	65,056,779
Loans and advances	12	480,643,662	481,338,838	487,768,992	487,768,992
Financial assets available for sale or at cost (iii)	9	825,775	825,775	825,775	825,775
Financial Liabilities					
Deposits	16	517,416,128	517,947,079	523,174,899	523,012,464
Other payables	17	685,247	685,247	824,125	824,125

The values reported have not been adjusted for the changes in credit ratings of the assets.

(c) Fair value hierarchy

The Credit Union measures fair values of assets and liabilities using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted market price (unadjusted) in an active market for an identical instrument;
- Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using:
 - quoted market prices in active markets for similar instruments
 - quoted prices for identical or similar instruments in markets that are considered less than active; or
 - other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Notes to the Financial Statements

For the year ended 30 June 2014

29 FAIR VALUE MEASUREMENT (continued)

(c) Fair value hierarchy (continued)

Fair values for assets and liabilities traded in active markets are based on quoted market prices at reporting date. The quoted market price for financial assets is the current bid price. The fair value of assets and liabilities that are not traded in an active market are determined using valuation techniques. To the extent possible assumptions used are based on observable market prices and rates at the end of the reporting date.

(d) Fair value hierarchy levels

The table below categorises assets and liabilities measured and recognised at fair value at the reporting date by the level of the fair value hierarchy into which the fair value measurement is categorised.

	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>
	\$	\$	\$	\$
2014				
Land and buildings	-	-	4,250,000	4,250,000
2013				
Land and buildings	-	-	4,214,008	4,214,008

Transfers into and out of the different fair value hierarchy levels are recognised at the date the event or change in circumstances that caused the transfer to occur. There have been no significant transfers into or out of each level during the year ended 30 June 2014 or the prior year.

(e) Level 3 fair value hierarchy

<i>Movements in level 3 of the fair value hierarchy</i>	2014	2013
	\$	\$
Balance at the beginning of the financial year	4,214,008	4,332,004
Losses recognised in profit or loss	(117,996)	(117,996)
Gains recognised in other comprehensive income	153,988	-
Balance at the end of the financial year	<u>4,250,000</u>	<u>4,214,008</u>
Total gains/losses for the period included in other income in profit or loss that relate to assets held at the end of the reporting period	<u>-</u>	<u>-</u>

Valuation techniques used to derive level 3 fair values recognised in the financial statements

The following table sets out the valuation techniques used to measure fair value within Level 3, including details of the significant unobservable inputs used and the relationship between unobservable inputs and fair value.

<i>Description</i>	<i>Valuation approach</i>	<i>Unobservable inputs</i>	<i>Range of inputs</i>	<i>Relationship between unobservable inputs and fair value</i>
Land and Buildings	Sale price comparison approach undertaken by an external valuer or the Board. Sale prices of comparable land and buildings in a similar location are adjusted for differences in key attributes such as property size and standard. The valuation model is based on a price per square meter.	Sale Prices	\$2,600 to \$6,500 per square metre	The greater the standard of the property the greater the fair value.

Directors' Declaration

The Directors of Railways Credit Union Ltd declare that:

- (a) The financial statements, comprising the statement of profit or loss and other comprehensive income, statement of financial position, statement of cash flows, statement of changes in equity and accompanying notes are in accordance with the Corporations Act 2001 and:
 - (i) comply with Accounting Standards and the Corporations Regulations 2001; and
 - (ii) give a true and fair view of the financial position as at 30 June 2014 and of the performance for the year ended on that date.
- (b) The Credit Union has included in the notes to the financial statements an explicit and unreserved statement of compliance with International Financial Reporting Standards: and
- (c) In the Directors' opinion, there are reasonable grounds to believe that Railways Credit Union Ltd will be able to pay its debts as and when they become due and payable.

Signed for and on behalf of the Directors in accordance with a resolution of the Board of Directors

Michael (Mike) G Scanlan
Chair
Brisbane

Andrew J Hughes
Chair - Audit & Compliance Committee
Brisbane

Dated this 24th day of September 2014.

INDEPENDENT AUDITOR'S REPORT

To the members of Railways Credit Union Ltd

We have audited the accompanying financial report of Railways Credit Union Ltd, which comprises the statement of financial position as at 30 June 2014, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 2, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Railways Credit Union Ltd, would be in the same terms if given to the directors as at the time of this auditor's report.

Opinion

In our opinion:

- (a) the financial report of Railways Credit Union Ltd is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the company's financial position as at 30 June 2014 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- (b) the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 2.
